IT INFRASTRUCTURE FACILITIES

Hardware Resources

The department has a significant number of installed PCs (966) along with peripherals like printers, scanners, and photocopiers. There might be other hardware resources like projectors and networking equipment to support the institute's activities.

Internet Connectivity

The institute has a bandwidth of 66 Mbps connectivity from READYLINK, which likely serves the internet needs of the entire campus.

User Accounts and Access Control

All students and faculty members have individual login IDs and passwords, which they use to access the internet facilities and other resources.

Learning Management System (LMS)

The institute utilizes an LMS, which allows students to access their course materials and notes after lecturers.

Software Usage

The department uses licensed or open-source software, which implies that they are compliant with legal regulations concerning software usage.

Budgetary Provisions

The institution has appropriate budgetary provisions in place to support expansion and updates of their IT infrastructure.

CCTV Surveillance

To ensure security, the campus is equipped with closed-circuit television (CCTV) cameras deployed across the premises.
